and sign an agreement of settlement on the following terms:—

(1) "In the first place it is regretted that the Management find it absolutely impossible to concede the demand of the Association to enhance the wages of daily-rated workers and piece-workers by a flat rate of three annas per worker per day with effect from 1st August 1947, for reasons already stated in the Management's letter No. 276 of 29th September 1947 to the Secretary of the Association.

(2) However, the Management are pleased to grant to every worker borne on the Muster Roll an addition to his basic wage of two annas per day (calculated on the number of working days in a month) or 12½ per cent of his basic monthly earnings, whichever is more.

(3) In view of this addition to the basic wage and the substantial increases both time-rated and piece-workers get thereby, the 6¼ per cent addition to the basic earnings of all workers granted with effect from 1st January 1945 as a temporary measure will be discontinued.

(4) The grant of the above increase of two annas per day or 12½ per cent whichever is more, will be subject to the following conditions:—

(a) That this increase will become effective from 1st November 1947.
(b) That the addition now granted will be purely tentative and in force for one year from 1st November 1947.
(c) That the present schedule of basic wages which also provides for annual increments, will remain unaffected.
(d) That the workers fully co-operate with the Management in achieving the monthly production target fixed by the Government of India under the new "Standardisation Scheme" for this Mill as noted below:—

Spinning Department ... 3,50,000 lbs. of yarn.
Weaving Department ... 5,00,000 yds. of cloth.

(e) That as the Government's Standardisation Scheme has already been brought into force and as the Government is insisting upon the achievement of the target figures, it will be clearly understood that if, in any month, due to slackness on the part of labour, absenteeism, slowing down, obstruction to work, etc., the above porduction target is not reached the additional allowance now granted will be subjected to proportionate cut, and that if the production target is not achieved continuously for three months for reasons noted in the above para, the Management will have the right to abolish the concession now granted."

10. The Labour representatives did not agree to this offer, but wanted that the 6¼ per cent addition to the basic earnings of all workers granted with effect from 1st January 1945 during the War, should not be discontinued. The Management representative stated that the Management had gone to the utmost limit possible and could not go further. The Association representatives on their part pressed the demand, but the Management representative regretted it was not possible to accept.

11. All possible ways of settlement were explored, but the parties did not come to a settlement in regard to this demand.

12. The conciliation in regard to the above demand thus ended in failure, which I hereby report.

13. I request that this report may be published in the Gazette, as required in Sub-Section (4) of Section 12 of the Mysore Labour Act.

I have the honour to be,
Sir
Your most obedient servant;

4953 NAVANEETHAM, *Chief Conciliator.*

DEVELOPMENT SECRETARIAT

No. D. 7648-53—I. and C. 291-46-4, dated 24 June 1947.
